AMSTERDAM INSTITUTE FOR
ADVANCED METROPOLITAN SOLUTIONS

Key factors

These are the underlying values and perceptions that contibute to the problem of trash in De Wallen.

Elements

Disorder Behaviour

Participation in Mantaining Order in the Streets

Trust in the System

Community Ownership

The **Perception of neglect** decreases **Trust in the System,** this incentivates **Disorderly Behavior.**
As a consequence the **Participation in Maintaining Order in the Streets** and **Community Ownership** decrease.
